

Radioline announces partnership with ABOX42

Karlsruhe, June 21th 2016 - Radioline, the European leading provider of radio stations and podcasts, and ABOX42, leading provider of modern and advanced Set Top Box solutions for IPTV, OTT and Hybrid operators, announce a strategic partnership to integrate radio content into the ABOX42 STB platform, used by major operators worldwide.

Today, 56% of Americans are using OTT services and connected TV has become the third screen for online radio listening in UK* and in France**. Demand of OTT services is growing and they are becoming an essential part of modern operator TV solutions.

Creating the next generation TV experience with a compelling solution for any operator requirement in terms of Hardware, Software and Services, ABOX42 chooses Radioline to offer 60,000 radio stations and podcasts as part of the ABOX42 Solutions. Therefore, the Radioline's HTML5 TV application is now available to all operator devices that are using the ABOX42's M-series Set Top Box platform.

"ABOX42 is a strong and reliable partner, whose designed environment is shaping the future of TV that naturally includes radios. We believe with this partnership we can extend the reach of the Radioline service and increase our footprint in the operator market" confides Geoffroy Robin / COO of Radioline.

"We believe in OTT services to complete a modern TV solution for operators. The ABOX42 Total Set Top Box Solution is providing compatibility to various OTT service. With Radioline we are able to add a very compelling audio streaming service to our operator customers, e.g. the German City Carriers and members of DNMG" welcomes Matthias Greve / CEO of ABOX42

Radioline's TV app is available in 6 languages (French, English, German, Dutch, Italian, Spanish), and allows an easy access to an international and local catalogue of 60,000 radio stations and podcasts from 130 countries, including great functionalities (favorites, access by moods, EPG & metadata...).
